Date: December 2025

Version: 1.0

View / Edit Profile:

UC-USM-01	Description	Ref
Name	View / Edit Profile	
Description	This use case describes the steps for viewing a user's bank account and profile details, as well as editing the registered mobile number and email address.	
Actors	Customer	
Includes	Viewing and editing profile, OTP Verification	
Extends	Reset Password screen	
Pre-Conditions	User should already have successfully logged in to the KCB CBS Platform with valid credentials.	
Basic Flow		
View Profile		
1.	The customer logs in to the KCB CBS platform with valid credentials.	
2.	The customer lands on the dashboard screen and clicks the My Account option in the header.	

3.	The system navigates the customer to the My Profile screen, where they can view details such as Name, Bank Account Number, CIF Number, Branch Code, Registered Mobile Number, and Email Address in read-only mode .	
Edit Profile		
1.	On the My Profile screen, the user clicks the Edit Profile button.	
2.	The system navigates the user to the Edit Profile screen, where the customer can update their registered mobile number and/or add/edit their email address, then click the Submit button.	
3.	When the user clicks Submit , the system navigates them to the OTP Verification screen.	
4.	On the OTP Verification screen, the user enters the OTP received on their registered mobile number or email address and clicks the Verify button.	
5.	If the entered OTP is valid, the system updates the user's mobile number and/or email address successfully.	
Post Conditions	User profile information (mobile/email) is updated and stored successfully.	
Alternative Flow & System Messages		
AF01	Fields left blank: In the edit profile screen if the user clicks update button without entering mobile number or email id, the system displays an error message.	
	<u>System Message:</u> “Registered Mobile Number/Email Id cannot be blank.”	

AF02	Invalid Mobile Number/Email id : If the user enters an incorrect Mobile number or email id the system displays an error message.	
	<u>System Message:</u> “Invalid Mobile Number/Email Id”	
AF03	Duplicate Mobile Number/Email id: If the user entered mobile number or email id is already associated with the user account then the system displays an error message.	
	<u>System Message:</u> “The entered Mobile Number/Email ID is already registered in your profile.	
AF04	Mobile Number/Email Id Updated: If the user entered mobile number/Email id is updated successfully then the system displays a success message.	
	<u>System Message:</u> “Your Mobile Number/Email Id has been updated successfully.”	
AF05	OTP Not Received / Expired • If the user does not receive the OTP within the validity period, they can click “Resend OTP”. • A new OTP is sent to the registered mobile/email.	
	<u>System Response:</u> • Once the OTP is sent the system displays the message “OTP sent successfully.” • If the OTP has expired then the system should display the message ““Your OTP has expired. Please request a new OTP.”	

AF06	Invalid OTP: If the user enters an incorrect OTP, the system displays an error message.	
	<u>System Response:</u> Show the error message “ Invalid OTP. Please try again. ”	

Reset Password:

UC-USM-02	Description	Ref
Name	Reset Password	
Description	This use case details the steps to follow for resetting the password for the KCB CBS User account.	
Actors	All users of the KCB CBS Web Platform (Customer, Branch Manager, Admin, Loan Officer)
