

User Case for Transaction Management Module

Module: Transaction Management

Project: Core Banking System – Kongu Co-operative Bank (KCB CBS)

Prepared By: Karthick E

Date: December 2025

Version: 1.0

Funds Transfer:

UC-TSM-01	Description	Ref
Name	Funds Transfer	
Description	This use case describes the steps for transferring funds from one account to another beneficiary account using the KCB CBS platform.	
Actors	Customer	
Includes	Transfer funds, OTP screen	
Extends	Add and Manage beneficiary screen	
Pre-Conditions	• User should already have successfully logged in to the KCB CBS Platform with valid credentials. • User should have added a beneficiary to whom the fund is being transferred.	
Basic Flow		
1.	The user logs in to the KCB CBS platform with valid credentials.	
2.	The user lands on the dashboard screen and clicks the Payment/Transfers option in the header and selects Funds Transfer screen.	

3.	The system navigates the user to the Funds Transfer screen,	
4.	In the Funds Transfer screen, the user selects his/her account in which the account is being debited.	
5.	Then the user selects the beneficiary to whom the fund is being credited, (beneficiaries which have been added in the add & Manage beneficiary screen will be displayed in the select beneficiary table.)	
6.	Then user selected the mode of payment for transferring the account (NEFT/IMPS/RTGS)	
7.	After that, the user enters the amount to be transferred and the purpose of the transfer, then selects pay now or schedule later option (if user selects schedule later option the fund will be transferred in the selected payment date and time.)	
8.	Then user confirms all the above in entered details are correct, in the Confirm Payment details screen and clicks confirm button	
9.	Then the system navigates the user to the OTP screen, On the OTP Verification screen, the user enters the OTP received on their registered mobile number or email address and clicks the Verify button.	
10.	If the entered OTP is valid, the system transfers the fund or transfers the fund to the scheduled date and time (if selected schedule later)and gives a success message.	
Post Conditions	The customer has successfully transferred the fund to the selected beneficiary.	
Alternative Flow & System Messages		

AF01	Mandatory Fields left blank: In the funds transfer screen if the user clicks the next button without filling any mandatory field, the system displays an error message.	
	<u>System Message:</u> “Please fill in all required fields before proceeding.”	
AF02	Transaction Failed (Technical / Timeout): If the transaction fails due to system error or session timeout.	
	<u>System Message:</u> “Transaction could not be completed. Please try again later.”	
AF03	Invalid Amount: If the entered amount is zero or exceeds the user’s available balance	
	<u>System Message:</u> For zero amount: “Please enter a valid transfer amount.” For insufficient balance: “Insufficient balance. Please enter a lower amount.”
